Mr. Jaap Steenge
Chairman FM PT 446

Faenza, 18/04/11

Ref.: Wamblee's products at FM 46 - CEPT

Dear Mr. Steenge,

We thank you for presenting our comments concerning MOB devices during your 10th meeting in Istanbul.

I read the notes in your draft and I would like to make some notes:

W400

This device operates at the power levels indicated in the technical regulations foreseen by ICAO, particularly it operates according to TSO C126 and ETSO 2C126 (technical document ED62); practically, as indicated also on the rear-side of the datasheet, the emission power is set for 100 mW and it is the same used in the ELT devices, according to ICAO indications (through the Technical Standard Order). So our device operates in the same way.

W410

This device has been built according to R&TTE regulations and we have duly presented our request through the OSN service (One Stop Notification of the European Community) to the following countries:

Austria – Belgium – Bulgaria – Switzerland/Liechtenstein – Cyprus – Czech Republic – Germany – Denmark – Estonia – Finland – France – Greece – Hungary - Ireland – Iceland – Italy - Lithuania – Luxembourg – Latvia – Malta – Netherlands – Norway – Poland - Portugal – Romania – Sweden – Slovenia – Slovak Republic – Spain - United Kingdom.

The following countries have given a negative response to the sale of the device: Belgium – France – Malta.

Then we tried to contact the Maritime Authorities of the countries that effectively accepted the sale of the product, in order to ask for more detailed explanations about the use of the device (many of these contacts have been indicated by the same Administrations of each country); here below is the list of the contacts we have been indicated and the results of our contact attempts:

Country	Maritime authority email address , received from R&TTE local authorities	State of replies
Bulgaria	bma@marad.bg	No answer at this time
Cyprus	tevriviades@dms.mcw.gov.cy	Answer received
Denmark	DMA@dma.dk	No answer at this time
Estonia	ulvi.valdaru@tja.ee	Answer received
